GAME MANUAL

Description:

Welcome to Portal Blitz: Jungle Edition! The ultimate multiplayer networking game where you and your friend will be transported to a challenging platformer world. Your mission? Clear the level by defeating all enemies and making sure you clear them faster to become the champion of the jungle!

Mechanics:

As a player, you will use the ASWD keys to move around the platformer world. The A and D keys are for horizontal movement, while the W and S keys are for vertical movement. You can jump with the SPACE bar and attack with the LEFT CLICK of the mouse. For a powerful dash-attack, use the RIGHT CLICK of the mouse. Keep in mind that your health and stamina will decrease when you take damage from enemies and use a dash-attack respectively, so use them wisely!

GAME MANUAL

Instructions:

To win each level, you must eliminate all the enemies. There are different enemies in each level, and they have different attack animations to deal damage to you. You can do this by attacking them with your sword while avoiding their attacks. You can also use your dash-attack to quickly move through enemies and deal damage to them. However, using the dash-attack will consume your stamina, so use it sparingly. Also, cannons in the game fires cannon balls and cannot be dealt with so make sure to avoid their fires. Keep an eye on your health bar; if it becomes empty, you will die and lose the game. You can restore your both your health and stamina by collecting health potions scattered hidden in boxes throughout the level. Use your attack to destroy these boxes and get them.

GAME MANUAL

Instructions:

Be careful not to fall into traps or water, or you'll suffer the same fate. You will immediately die when you fall into them but you can avoid traps by jumping over them or using your dash-attack to quickly move past above them. In the game, you can win by killing all enemies and completing the level faster so see with your friend who can kill more enemies and clear the level the faster.
